

Ex:-

```
< form action = "submit.jsp" method = "post" >  
< label for = "name" > User Name : < label >  
< input type = "text" id = "name" name = "name"  
required > < br > < br >
```

```
< input type = "submit" value = " Submit " >  
< / form >
```

c) Explain the - - - - - productivity
Ans:- Personal Software Process (PSP) is a structured framework that helps individual software engineers improve their work by measuring time, defects, and productivity.

Benefits of PSP

- Better planning & estimation
- Early defect detection
- Improved personal productivity
- Higher software quality

Team Software Process (TSP) extends PSP concepts to software development teams. It helps teams organize work, track progress, and improve collaboration.

Benefits of TSP :

- Better team coordination
- Reduced project risks
